

IP Office Fact Sheet

4600 Series IP Telephones

Overview

Avaya 4600 series IP telephones are designed for organizations that want the benefits of converged communications. These H.323 IP telephones connect directly to your office LAN, simplifying your communications infrastructure. With the 4600 series telephones, remote employees can access the full set of features while working outside the office location.

Capabilities

- Easy access to features: The 4600 series IP telephones simplify access to important features with:
 - Up to 10 fixed feature keys: Hold, Conference, Transfer, Drop, Redial, Mute, Volume, Speaker, Headset, Voicemail.
 - Up to 24 programmable call appearance/feature keys that are electronically labeled (only on display phones)
 - Up to 7 menu/display navigation keys (including 4 that are electronically labeled)
- Embedded Applications: Speed Dial, Call Log, Web Browser (only on 4620)
- Displays for access to features and Web browsing
- Full-duplex speakerphone (4610, 4620 only)
- Message waiting indicator
- Built-in headset jack
- Multiple language support built-in: English, French, Italian, Spanish and KataKana
- 8 personalized ring patterns
- G.711, G.729a/B Voice CODECs; QoS Options - UDP Port Selection, DiffServ and 802.1p/B (VLAN).
- Integrated 10/100 BaseT Ethernet port to connect PC to phone
- Hearing aid compatibility
- IP address assignment - DHCP client or statically configured
- Downloadable firmware for future upgrades

Benefits

The 4600 series IP telephones deliver a wide range of productivity boosting features in a device that is easy to use and designed for converged communications environments.

Avaya Advantage

Electronic key labeling eliminates paper bills, simplifying phone administration and management.
